We KNOW Hemp Products.

From product formulation and creation, to branding and business development, our unparalleled understanding of the hemp industry makes Nutralife Wellness the ideal partner for your hemp brand.

With more than two decades of combined hemp industry knowledge, our expertise is second to none! If you choose to work with us, this is what you can expect:

Custom Product Formulation: We are a team of passionate innovators and formulators, with a skill for creating successful custom hemp products like tinctures, topicals, skin care, pet products, and more! Through our Custom Formulation program, we can take your product idea and make it a reality. You'll work directly with our formulation team to develop the perfect product for your brand with pristine look and feel. Our packaging specialists will help you choose the best containers to give you a unique and top-notch aesthetic. We also have in-house label design and print services so that all your needs are taken care of by the company that knows your product best.

White Label Services: If you already love our top selling hemp products and want to incorporate them into your own brand, then our White Label program is just for you! With unbeatable order minimums and pricing, you can easily create your own product line or expand your existing one with our line of premanufactured and packaged products. You'll be able to work with our in-house design and print team to create a product label that fits your brand perfectly.

Top-Tier Manufacturing: Whether you come to us for a custom formula or take advantage of our white label program, you'll never have to wonder where or how your product is being made. We do all our manufacturing in-house at our facility in San Diego, California. Overseen by some of the most knowledgeable people in the hemp industry with the strictest quality standards, we work to deliver you the highest quality hand-crafted product on time, every time.

360° Business Development: This isn't our first rodeo...we come with experience and expertise in business development for hemp products. From branding to pricing structures, to navigating the tricky world of hemp, we're here to answer questions and provide guidance during every step of your journey.

We've helped to create over 200 brands globally. Whatever your hemp product goals are, let's work out a path to get you there!

WHY CHOOSE NUTRALIFE WELLNESS

Nutralife Wellness offers many competitive advantages! We are constantly working on ways to produce high quality products with exceptional natural ingredients. Our team is experienced in product formulation with cost savings in mind, so that you're always getting the best value possible.

With the hemp industry still in its earliest phases and loosely regulated, it's critical to ensure that your manufacturer is qualified and ethical enough to entrust with the safety and satisfaction of your customers. At Nutralife Wellness, we have unrivaled experience in the CBD market and will help to navigate you through the process every step of the way.

We take pride in what we deliver to our clients, and our customer service is unparalleled. You will not find another supplier who is more dedicated to your success, which is why we offer low minimums and many customizable options!

- ▶ High CBD Potency
- ▶ Effective Products
- ▶ Dedicated Customer Service
- ▶ Natural Ingredients
- ▶ Low Order Minimums
- ▶ Competitive Pricing

WE LOVE NATURAL INGREDIENTS

At Nutralife Wellness, we firmly believe that nature knows best. Our customers rely on our products for a range of health and wellness benefits, including relaxation, muscle recovery, restful sleep, healthy looking skin, and more. By harnessing the power of Mother Nature, we're able to deliver effective products that are enhanced by the beneficial properties of natural ingredients. Our formulators select the finest botanical extracts to complement our hemp extract ingredients so that our products deliver noticeable end results, time and time again.

KEY INGREDIENTS

MUSHROOM EXTRACTS

Our Mushroom Enhanced Functional tinctures feature various blends of mushrooms and hemp extract to help support sleep, stress, focus, immunity, and recharge.

BOTANICAL EXTRACTS

You'll find a myriad of plant-derived ingredients in our products including Green Tea, Arnica, Calendula, Comfrey, Beet Root, Sea Kelp, Manuka Honey, Lemon Balm, and more!

PLANT-BASED OILS

Many of our products feature nourishing, non-comedogenic plant-based oils such as Jojoba, Argan, Hemp Seed, Olive Oil, Rosehip, and Sweet Almond.

NATURAL SALTS & CLAYS

Not only does nature provide us with plant-based ingredients, but we also incorporate natural compounds found on the earth such as Bentonite, Kaolin Clay, Himalayan Salt, Magnesium, and others.

ESSENTIAL OILS

Concentrated with the natural essence of their plant source, essential oils help to enhance our products with their beneficial properties. Our favorites include Lavender, Frankincense, Lemongrass, Ginger, Peppermint, and Eucalyptus... just to name a few.

TERPENES

Terpenes are the bioactive compounds found in plants that give their distinct aroma, but they also have been shown to help balance our mind, body, and overall wellbeing.

NATURAL BUTTERS & WAXES

Known to give our topicals that ultra creamy and luxurious feel, natural ingredients like Shea Butter, Coconut Oil, and Beeswax are the backbone of our Hemp Extract Creams.

OUR FORMULATION PROCESS

With over two decades of combined experience, our team of formulators is extremely knowledgeable in creating high quality hemp extract products. They are experts in taking a product idea and turning it into reality. Whether your goal is to create a new custom formula from an idea or make a small change to an existing one, our team will assist you in bringing your new product to market on time and within budget.

IT ALL STARTS WITH AN IDEA

Our clients bring to us a product idea that they'd like to develop, and through discussions about product strength, consistency, specific ingredients, packaging, etc. we engineer a plan to bring that product to life. Looking for a topical that not only helps sore muscles, but also nourishes chapped skin? We've got you covered! Interested in a tincture to ease the fear of flying and tastes like a piña colada? Say no more!

RESEARCH & DEVELOPMENT

Once we have all the ingredients dialed in, our formulators head to the lab to create samples. Each one is tested for efficacy, stability, potency, and other important factors such as scent, feel, and aesthetic. Once the best sample has been chosen, it's time to scale up to a large production.

SELECTING INGREDIENTS

The next step in the process is to select the proper ingredients and work them into the formula. We thoroughly research to find the finest botanicals, extracts, and natural compounds to make your product superior to the rest. Each formula is constructed with your specific cost needs in mind so that we're creating the most effective product with the greatest value.

THE FINAL PRODUCT

Our manufacturing and production team works diligently to ensure that your products are made and packaged successfully and on time. We operate the machinery to mix, fill, seal, label, and ship your products to their final destination.

Bulk
**HEMP
EXTRACTS**

FULL SPECTRUM HEMP EXTRACT

Our Full Spectrum Hemp Extract is produced through a distillation process that creates an ultra-concentrated product that is free of plant material such as waxes, chlorophylls, lipids, while still preserving the naturally-occurring cannabinoids. This extract is formula-ready and suitable for applications such as topicals, edibles, tinctures, skin care products, and more.

CBD Range: 75-90%

THC Range: 0.01%-0.3%†

Decarbed: Yes

Full Spectrum: Yes

Color: Golden

Appearance: Thick dark semi-solid oil (crystallization is natural and will occur over time*)

Consistency: Thick and sticky

Contains Terpenes: No

Source: USA

†All extracts are below the legal limit for delta-9 THC

*CBD can crystallize at concentrations of 60% and above. Prior to formulation, the extract must be heated and liquified to ensure proper homogenization.

VOLUME PRICING (by weight)

Weight	Per Gram	Total Price
1kg	\$1.70	\$1700
2kg	\$1.60	\$3200
5kg	\$1.40	\$7000
10kg	\$1.20	\$12,000

RAW UNFILTERED HEMP EXTRACT

Our Raw Unfiltered Hemp Extract is produced through a critical CO₂ process that extracts the oil while still preserving much of the natural plant material such as waxes, chlorophylls, and lipids. Since this oil is less refined, the resulting CBD concentration is lower than a distilled extract. This raw extract is not decarboxylated, thus it contains a significant amounts of the beneficial cannabinoid, CBDA. This oil is formula-ready and suitable for applications such as topicals, edibles, tinctures, skin care products, and can even be ingested on its own as a concentrate.

CBD Range: 8-12%

THC Range: 0.01%-0.3%†

Decarbed: No

Full Spectrum: Yes

Color: Dark Brown/Green

Appearance: Thick viscous oil

Consistency: Thick and slightly wax-like*

Contains Terpenes: No

Source: Europe

†All extracts are below the legal limit for delta-9 THC

*Prior to formulation, the extract must be heated and liquified to ensure proper homogenization.

VOLUME PRICING (by weight)

Weight	Per Gram	Total Price
1kg	\$1.80	\$1800
2kg	\$1.60	\$3200
5kg	\$1.25	\$6250
10kg	\$1.00	\$10,000

ISO-FILTERED HEMP EXTRACT

Our ISO-Filtered Hemp Extract is a THC-Free powdered extract that is odorless and tasteless. This is the purest and most stable form of a CBD extract available. Our extract is tested by third party laboratories to ensure that there are no toxins such as heavy metals or solvents. Our ISO-Filtered Hemp Extract is formula-ready and suitable for applications such as topicals, edibles, tinctures, skin care products, and more.

CBD Range: 99%+

THC Range: ND

Decarbed: Yes

Full Spectrum: No

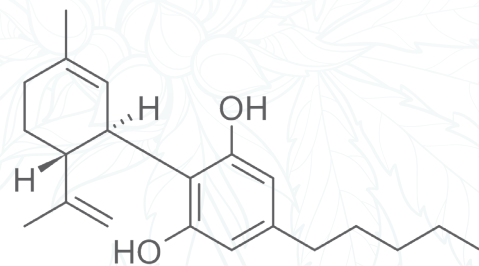

Color: White to Off-White

Appearance: Light weight powder with small clumps

Consistency: dry fine powder

Contains Terpenes: No

Source: USA

Name: (-)-trans-Cannabidiol

Chemical Formula: C₂₁H₃₀O₂

CAS Number: 13956-29-1

Molecular Weight: 314.47 g/mol

VOLUME PRICING (by weight)

Weight	Per Gram	Total Price
1kg	\$1.60	\$1600
2kg	\$1.40	\$2800
5kg	\$1.20	\$6000
10kg	\$1.00	\$10,000

DELTA-8 THC HEMP EXTRACT

Our Delta-8 THC Hemp Extract is produced through a distillation process that creates an ultra-concentrated product that is free of plant material such as waxes, chlorophylls, lipids, while still preserving the naturally-occurring cannabinoids. This extract is formula-ready and suitable for applications such as topicals, edibles, tinctures, skin care products, and more.

CBD Range: 80-88%

THC Range: 0.01%-0.3%†

Decarbed: Yes

Full Spectrum: No

Color: Golden Yellow

Appearance: Solid at room temperature*

Consistency: Thick viscous oil*

Contains Terpenes: No

Source: USA

†All extracts are below the legal limit for delta-9 THC

*Delta-8 THC is extremely thick to solid at room temperature. Prior to formulation, the extract must be heated and liquified to ensure proper homogenization.

VOLUME PRICING (by volume)

Volume	Per Liter	Total Price
1 liter	\$1600	\$1600
3 liters	\$1450	\$4350
5 liters	\$1350	\$6750
10 liters	\$1200	\$12,000

The background is a solid teal color. It features a large, stylized leaf graphic in a darker shade of teal, centered behind the text. The entire background is covered with a faint, repeating pattern of cannabis leaves and buds in a light teal color.

Mushroom Enhanced Functional **TINCTURES**

THE MANY BENEFITS OF MUSHROOM EXTRACTS

Mushrooms have thousands of years of therapeutic use in traditional cultures; however, today, the research is starting to emerge on both their mechanisms and full range of applications. While much of the earlier findings have focused on their antioxidant content and ability to regulate the immune system, we now know that they may also have greater effects on our overall health and mood! At Nutralife Wellness, we use a combination of mushroom extracts for specific functions such as Sleep and Stress. Rather than taking them in isolation, by combining them together, a synergistic effect can be optimized to help achieve the best results. Below are some of the extracts you'll find in our Mushroom Enhanced Functional Tinctures.

Lion's Mane

- Brain support
- Aids cognition
- Fortifies immune function
- Rich in antioxidants
- Promotes healthy mood

Red Reishi

- Promotes healthy mood
- May promote heart health
- Supports healthy brain function
- Work to support immune function
- May help alleviate fatigue

Shiitake

- Rich in antioxidants
- Packed with vitamins & minerals
- Supports colon health
- Fortifies bones
- Supports immune function

Cordyceps

- May help boost libido
- Supports immune function
- Helps increase athletic endurance
- May promote heart health
- May help alleviate fatigue

Chaga

- Fortifies the immune system
- Very rich in nutrients
- Rich in antioxidants
- Benefits the joints
- Supports healthy skin

Turkey Tail

- Supports gut health
- May help reduce stress
- Helps aid digestion
- Rich in fiber
- Fortifies immune function

WHAT MAKES OUR EXTRACTS SUPERIOR?

Mushrooms have a strong chitinous cell wall which makes it difficult to extract the beneficial nutrients. Therefore, we use an **Optimized Triple Extraction Method** which allows for the broadest spectrum of bioactive compounds to be isolated. This method is extremely labor intensive and very time consuming as it involves three processes: *Fermentation, Hot Water Extraction, and Slow Alcohol Extraction*. Most companies rely on one or two of these methods for their mushroom extractions, but Nutralife Wellness combines the power of all three to ensure that our extracts have the maximum therapeutic benefit.

MUSHROOM ENHANCED "SLEEP" FUNCTIONAL TINCTURE

This Mushroom Enhanced Functional Tincture is made with our 99%+ Pure hemp extract, a proprietary alcohol-based mushroom extract for sleep, Melatonin, and sustainably sourced MCT Oil. Available in Lavender Vanilla flavor and in three different concentrations.

Standard Carrier Oil: MCT Oil, Food Grade Cane Alcohol

Standard Bottle: 1 fl oz (30 mL)

THC Range: ND

Standard Potencies: 250 mg / 500 mg / 1000 mg CBD

Color: Brown*

Appearance: Oily liquid

Consistency: Thin viscosity, separated liquid

Bottle Color: Amber Glass

Standard Closure: 1 mL glass graduated pipette with black plastic

Flavor: Lavender Vanilla

Label Dimensions: 1.75" X 3.75"

Unlabeled Units Available: Yes

Storage: Store in a cool, dark, dry location*

*MCT Oil will naturally darken in color when exposed to light

Ingredients: Mushroom Extract Blend (Distilled Water, Pharmaceutical Grade Cane Alcohol*, Red Reishi Extract*, Chamomile*, Ginkgo Biloba*, Mentha Spicata*, Albizia Bark, Plantain Leaf), MCT Oil, Natural Flavor, Hemp Extract, Stevia Extract, Melatonin
*Organic Ingredients

Terpene Enhanced
Functional
TINCTURES

THE MANY BENEFITS OF TERPENES

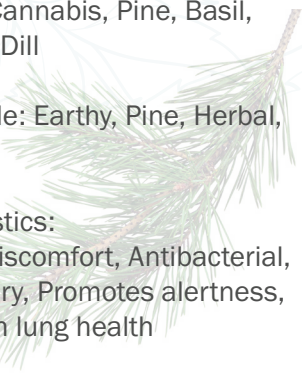

Terpenes are the chemical compounds that give plants their various characteristic aromas. These compounds have been found to have many physical and mental health benefits. In fact, the reason that essential oils are said to have beneficial properties is due to terpenes! They are also involved in what's known as the "Entourage Effect", where they interact with cannabinoids and receptors in our Endocannabinoid System to produce a variety of responses on a number of physical and cognitive processes, such as appetite, mood, sleep, memory, and everyday discomforts. Below are some of the terpenes that you'll find in our products.

Alpha-Pinene

Found in: Cannabis, Pine, Basil, Rosemary, Dill

Scent Profile: Earthy, Pine, Herbal, Spice

Characteristics:
May help discomfort, Antibacterial, Aids Memory, Promotes alertness, Assists with lung health

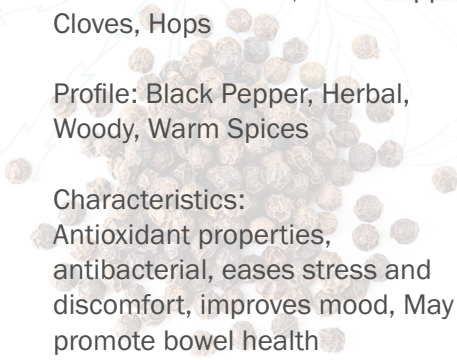

Beta-Caryophyllene

Found in: Cannabis, Black Pepper, Cloves, Hops

Profile: Black Pepper, Herbal, Woody, Warm Spices

Characteristics:
Antioxidant properties, antibacterial, eases stress and discomfort, improves mood, May promote bowel health

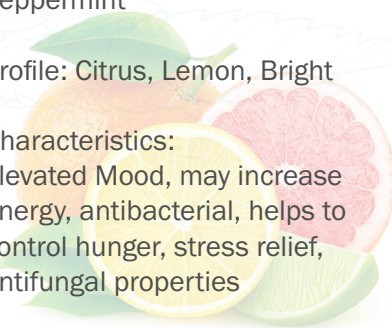

Limonene

Found in: Cannabis, Citrus Fruit, Peppermint

Profile: Citrus, Lemon, Bright

Characteristics:
Elevated Mood, may increase energy, antibacterial, helps to control hunger, stress relief, antifungal properties

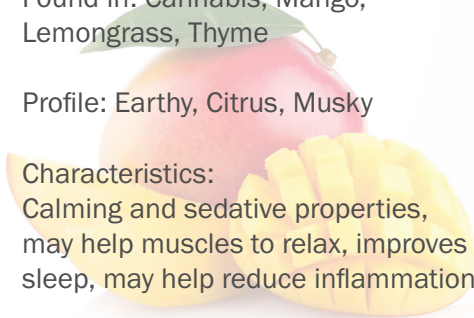

Myrcene

Found in: Cannabis, Mango, Lemongrass, Thyme

Profile: Earthy, Citrus, Musky

Characteristics:
Calming and sedative properties, may help muscles to relax, improves sleep, may help reduce inflammation

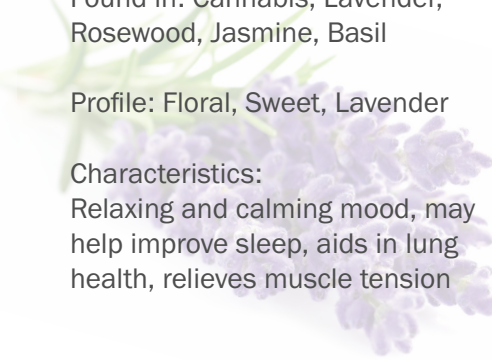

Linalool

Found in: Cannabis, Lavender, Rosewood, Jasmine, Basil

Profile: Floral, Sweet, Lavender

Characteristics:
Relaxing and calming mood, may help improve sleep, aids in lung health, relieves muscle tension

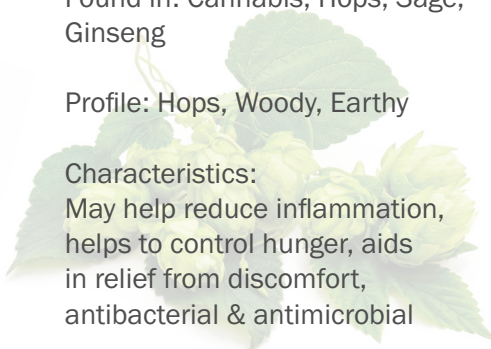

Humulene

Found in: Cannabis, Hops, Sage, Ginseng

Profile: Hops, Woody, Earthy

Characteristics:
May help reduce inflammation, helps to control hunger, aids in relief from discomfort, antibacterial & antimicrobial

WHAT MAKES OUR TERPENES SUPERIOR?

Nutralife Wellness partners with True Terpenes for all of our terpene ingredients. They're the industry leader in terpene production and are FSSC and ISO Certified, operating in cGMP facilities.

FACIAL
SKIN CARE

Nutralife[™]
WELLNESS

HEMP EXTRACT FACIAL CLAY CLEANSER

Our Facial Clay Cleanser is designed to gently foam and wash away dirt and impurities while infusing your skin with moisture from high quality natural ingredients. Activated Charcoal and Kaolin clay help to naturally cleanse and remove pore-enlarging oils for smooth and even skin. Beet Root is packed with antioxidants and contains lycopene and squalene which improve skin elasticity and reduce signs of aging. Hemp Seed Oil is a non-comedogenic oil that won't clog pores; it hydrates, increases circulation, and provides essential fatty acids for clean and nourished skin.

Standard Size: 4 fl oz

THC Range: ND

Standard Potency: 250mg CBD

ALLOW US TO CREATE YOUR **CUSTOM FORMULATION**

Through our Custom Formulation program, we can take your product idea and make it a reality! You'll work directly with our formulation team to develop the perfect product for your brand with pristine look and feel. Our packaging specialists will help you choose the best containers to give you a unique and top-notch aesthetic. We also have in-house label design and print services so that all your needs are taken care of by the company that knows your product best.

Custom Formula Possibilities

- ▶ Salves & Balms
- ▶ Hand & Body Lotions
- ▶ Body Creams
- ▶ Body Butters
- ▶ Massage Lotions and Oils
- ▶ Personal Lubricants
- ▶ Facial Cleansers
- ▶ Facial Exfoliants
- ▶ Face Masks
- ▶ Moisturizers
- ▶ Facial Serums
- ▶ Facial Oils
- ▶ Shampoo & Conditioner
- ▶ Hair Treatments
- ▶ Body Wash
- ▶ and MUCH more!

FREQUENTLY ASKED QUESTIONS

WHAT IS HEMP EXTRACT?

Hemp Extract is derived from an organic cannabinoid rich substance formed in the plant's secretions. Our Hemp Extracts are predominantly CBD based, though there are emerging hemp extracts that contain majority of other cannabinoids such as CBG, CBN, Delta-8 THC, and more. All of our extracts fall below the legal limit for Delta-9 THC, which is 0.3%.

HOW DOES HEMP EXTRACT INTERACT WITH THE BODY?

The cannabinoids in hemp extract interact directly with the endocannabinoid system. This is the body's natural mechanism of maintaining homeostasis and balance. Though there is much research on the ECS today, little was known until as recently as the early 1990s. It was discovered that cannabinoids interact with certain receptors in throughout the body known as CB1 and CB2. It's these receptors' responses to the presence of cannabinoids that help to moderate a number of physical and cognitive processes, such as appetite, mood, sleep, memory, and everyday discomforts.

WHAT IS THE DIFFERENCE BETWEEN HEMP SEED OIL AND HEMP EXTRACT?

Hemp seed oil is made from the seeds of the hemp plant and contains low concentrations of plant extracts and compounds. It is used for a variety of things such as: beauty products, lubricants, paints, and as a food.

Hemp Extract is an extraction from the agricultural hemp aerial plant parts. This oil may contain higher concentrations of compounds such as cannabinoids, terpenes, and flavonoids.

WHAT ARE YOUR MINIMUM ORDER QUANTITIES?

For White Label, our MOQs begin at 25 units. For Custom Formulation, we require a minimum of 100 units for an established formula. Depending on the type of product though, packaging and ingredients may require a higher minimum order. Please contact us at +1 619-900-2077 or email us at sales@nutrallifewellness.com for more information.

HOW SHOULD I STORE MY PRODUCTS?

Our products do not need to be refrigerated, but if you prefer to take it when it chilled you can store it in the fridge without that impacting the product. We recommend storing your product anywhere that the bottle isn't exposed to constant light and or heat. When stored properly, most products will have a 2 year shelf life.

CAN THE COLOR OF MY PRODUCT VARY FROM BATCH TO BATCH?

Products that are made with ingredients grown in nature sometimes vary slightly from batch to batch. Our products are not made with any additives or dyes to standardize the color of our products. That said, if you experience a color difference from product to product, it is likely due to the natural, seasonal variation in our plant based ingredients. It's also worth noting that MCT oil can naturally change color when exposed to light. This does not affect the quality of the product at all.

WHERE DO YOU SHIP/DELIVER TO?

We ship to all 50 US states.

We also offer international shipping!

Please contact us at +1 619-900-2077 or email us at sales@nutrallifewellness.com for more information.

DO YOU PROVIDE A CERTIFICATE OF ANALYSIS FOR YOUR PRODUCTS?

Yes. Nutralife Wellness maintains records of COAs for all of our products. However, if you are selling the products under your own brand, we recommend obtaining a COA from a third party lab with your label and company information.

DO YOU OFFER PAYMENT TERMS?

Yes! We partner with Credit Key to offer our clients credit terms for their order. Customers who qualify may be eligible for up to 12 months financing for up to \$50,000.
